EXTENSIVE FIRE IN BALTIMORE-TWO RISINESS HOUSES DESTROYED, &C.-A destructive fire occurred last night, resulting in the total destruction of two business houses. The total loss is estimated at about 365,000, and the houses burned were Nos. 347 and 349, on the south side of West Baltimore street. The fire began at No. 349, oc cupied by Lewis Ash & Son, wholesake clothicis, and Leonard Passano, wholesale dealer in notions. No. 347 was occupied by D. F. Haynes, dealer in queensware, oils &c. and Stribling & Todd. Job- and bookprinters. Both these buildings, which were promets. from structures, with mansard roofs, together with their contents, were almost entirely destroyed. The fire also extended to No. 345 West Baltimore street, occupied by William A. Miller, confec tioner, and burned part of the roof. Mr. Miller's stock was damaged by water. The building No. 351 West Baltimore street, occupied by Schwerdtmann & Co., importers of toys and fancy goods, standing somewhat higher than those burned, was not much damaged by fire, but the stock suf-

The Secretary refers to the fact that while most of the abuses which are pointed out in Sheridan's "supplemental report" during the last three or four years previous to the incoming of the present Administration have been going on, the General had no word of censure for them in his official reports; but that now, when the criminal prosecutions of thieves are the order of the fear of the penitentiary, and are trying by all means to get out of the clutches of the Interior Department, the General suddenly feels himself compelled to launch into unmeasured denunciations and bring forward complaints against agents already dismissed

The Message of the Governor of New York.

ALBANY, January 9.-Governor Robinson's message says the State finances are in a more satisfactory condition now than they

have been for many years. The reform in canals and State-prison affairs are the most complete ever witnessed; but the prisons are greatly over-crowded, and the enlargement of the Clinton prison to double its present capacity is recommended. The number of insane persons is increased by business losses and disappointments almost beyond the power of the State to provide for them. The Governor recommends the conversion of the State Inchriate Asylum, which he regards as a failure, into an asylum for insane inmates of the county poor-houses. He urges the discontinureputation. He gives the reasons which compel him to take up this controversy, pointing out that the arraignment of one department of the Government by an officer under another department in an annual report is an unprecedented thing, but that he would not have objected to it were the arraignment only just, and did it present a fair representation of facts, but such not being the case he had considered it his duty to call for proof so as to protect worthy and call for proof so as to protect worthy and a prompt and fearless protest from the Legis-
